À the fifth track of his À'Ordre 6À me de clavecinÀ" in B flat maggiore, taken from his second book of collected pieces for harpsichord (FÀÀ lces de Clavecin).[1][2] À emblematic of the brisÀ À© style characteristic of French Baroque keyboard music.[3] Music LààOperaÀ in the form of rondoau, employing a variant of the traditional Romanesque in the low time quadrupled instead of the usual triple time. [2] According to Tom Service, "The four parts create a changing tapestry of melody and harmony, which interact and overlap with different rhythmic patterns and melodies. The effect is sparkling, kaleidoscopic and seductive, a làoeil sonic trompe that seems to have predicted images of fractal mathematics, centuries before they existedÀ".[4] Audio reproduction is not supported in the browser. can download the audio file.Opening the bars of L Les Barricades MystÀÀ©rieuses Title Les Barricades MystÀÀ©rieuses À was originally published with spelling Les Baricades MistÀÀ©rieues [À'single rÀ" in the first word, and À"i" rather than À"yÀ" in the second word]. All four possible spelling combinations were used with À'double rÀ" and À"yÀ" as the most common¹. The meaning of the phrase À is a conundrum (an example of how musical allusions can remain hidden in time).[5] There has been much speculation about the meaning of expression "mysterious barricadesÀ", but there does not seem to be any direct evidence.[6] Harpsichordist Pascal TuffÀÀ©ry suggested that, in line with the bucolic character of other pieces of CouperinOrdre 6À 1 me de clavecin, the rhythm of hammering grapes could represent the stamping of the in wine-making (the French word barrique means à barrel rel, e barriquad was a name adopted by the day winegrowers in France).[6] "Mysterious" could allude to the meaning of wine in the mysteries of Bacchus (as well as in the Some of the least probable interpretations of the "mysterious barricades" proposed over the years à € "some times in relation to the seventeenth century à € à €" include female eyelashes, underwear and even castles bells. [6] a plausible attempt to connect. The title of the characteristics of the music itself was provided by the harpsichordist Luke Arason: [6] À «The title Les Barricades Mystà town is probably intended as evocative rather than as a reference to a specific, musical or not. Scott Ross, in a master class shot and distributed by Harmonia Mundi, compares the work to a train. This is certainly not the exact image that Couperin tried to transmit, but to Les Barricades it is easy to hear the image of a heavy but fast object that takes momentum. In this sense, the mysterious barricades are perhaps those that slow down the "train" and sometimes stops ... This hypothesis seems to be in tune with the pedagogical objectives of the music of Couperin, since the composer presents himself as a sort Of specialist in building sound through the legacy, the lutist! style ... Furthermore, it seems to form a set with the following song, Les Bergeries. This last song, although more melodic by Les Barricades, inserted in a higher and more bucolic register in feeling, there is also an exercise in using a repetitive reason (in this case an obstinate evocative left of the muse) to build A sound without appearing mechanical or repetitive. Both les barricades mystava © rieuses that les bergeries, therefore, are exercises to build (and relax) elegantly sound and momentum ». [6] While the title reflects the musical structure, there may be others at stake. The suggestion of the barricades is À «a double sense that refers simultaneously to the female virginity and the harmonic suspensions [progress] of music, [whose] lute figurations [with a brisaza style] are imitated to produce a Stallà », as Judith Robison Kipnis explained the title of the work and its interpretation from Da husband Igor Kipnis. [8] Jean-HonorÀ© Fragonardthe Love Letter (1770) Other intended meanings suggested for the title include: preventing people from communicating between the past, present and future between life and death masks worn by the artists of Le MystÀEç ou les fÀEÀkottes de l' Inconnu (the mysterious or celebrations of the unknown one) staged by one of Couperin's clients, the Duchesse du Maine in 1714 [9] a "technical joke ... the continuous lute-style suspensions are a barricade for [10] Legacy Claude Debussy, who considered FranÀEÀsòis Couperin as the "poetic piÀ" of our [clandestine] clapsichordists" and an influence on his piano Àudes, expressed particular admiration for Les barricade MystÀ© (11) In 1903, Debussy wrote: "We should think of the example that Couperin's harpsichord works put us: they are wonderful models of grace and innocence for a long time. Nothing could ever make us forget the delicately voluptuous, so delicately perverse scent, which is so innocently around The Barricades MystÀ©suses.
